Discover the Future of Learning

STREAMLINED E-LEARNING WORKFLOW

We ensure that our workflow is as simple and streamlined as possible to provide best of class e-learning experience for organisations of all sizes, with the highest level of quality.

CONTENT BY SUBJECT MATTER EXPERTS

Our e-learning content is curated by leading subject matter experts with bespoke introduction, engaging video-based modules and mandatory tests to ensure effective learning.

COMPLIANCE & REPORTING

With compliance and reporting in mind, our e-learning content is constantly updated and the platform is designed to monitor timelines for completion, generate reminders and audit trails.

BESPOKE E-LEARNING COURSES

We work closely with lawyers across Rajah & Tann Asia who are amongst the most highly experienced subject matter experts to develop bespoke legal content for your e-learning courses.

ONLINE & OFFLINE TESTS

Online tests after each e-learning module track user comprehension of legal content and discourages passive learning. We offer our online tests as a standalone or as part of our e-learning courses.

REPORTING FOR COMPLIANCE & AUDIT

Tracking user completion is vital for compliance and auditing purposes. We can generate official reports of user completion at any time.

CLOUD-BASED PLATFORM

Users can access their e-learning courses at their own convenience and pace from any internet browser or mobile with just an internet connection. This means that there will no longer be any geographical impediments to your training sessions.

VIDEO-BASED MODULES

Our engaging video-based modules optimise the learning experience and enhance knowledge comprehension. Our videos are professionally produced and go through meticulous post-production processes to ensure exceptional video and audio quality.

LEGAL UPDATES MECHANISM

We provide updates throughout your annual subscription to ensure that our e-learning courses reflect the latest statutory and regulatory amendments.

SCALABLE USER ACCOUNTS & ON-BOARDING

Our platform is capable of supporting an unlimited number of user accounts, allowing companies of all sizes to deliver e-learning courses to all staff members. Let us take care of on-boarding and delivering our e-learning courses to all your staff

Our e-learning courses are particularly useful to:

Ensure staff meet regulatory requirements for training on a specific project

Ensure staff are trained on specific aspects which would reduce operational risks for an organisation

Obtain best of breed training content by experts in their fields

Deliver training courses expeditiously and without any time or geographical restriction
